Very bad. I've played 8 minutes and I found a hacker. Gameplay is poor.. Nice music and visuals, and interesting gameplay. Most of the time it's functional, but you'll find the occasional glitch, mostly clipping issues. Still worth checking out if you want to experience a different type of 2D platformer.. I love platformer games, and Fitz the Fox gives off that retro-like vibe. The 8-bit music really makes you about when video games were just pixelized. I recommend this to anyone who's a fan of retro games.. This Game is awesome if a rating system was available I would give it 9001V10 it is that good. The controls don't feel clunky and overall if I had the time I would play this game for the whole day and into the night. I've been hyped for this game for so long not and let me tell you, it was worth the wait.. Terrible game, really is a terrible game. So far have played 10 matches and have lost every single one of them. And 3 of those 10 matches all my batters was out for LBW.....really?? all 10 of them players??. Killing Floor + Rise of the Triad = this. <https://www.youtube.com/watch?v=AI-T01kOY6Y>

[The primary reason I picked this up was to test out the locomotion. For those that do not get motion sickness, it's nice to have a variety of ways to play and have experiences other than just teleportation. In that regard, I like it. I saw one other review stating this being a good "proof of concept". I would agree with that in its current state. To me testing out the controls accomplished what I set out to experience with this game.](#)

[From an actual game perspective, there is a lot of potential but isn't there just yet. I'm keeping this game to support the developer\(s\) as I like where they are going with this. To me this can/could feel like a Mirror's Edge type game in the first person. From a software standpoint, the graphics are very basic and gameplay is quite glitchy. Not all people will have the issues I did but for me, getting the mechanics down of the controls I have not mastered well enough for a seamless and completely enjoyable experience as I will need a lot more practice. Some games I can pick up and go but this one I had a lot of trouble. It took me over 7 and a half minutes to beat level 2. :\) I only state that as there may be others that find themselves fumbling around and getting stuck at parts without practice.](#)

[The glitches I experienced were not show stoppers per say as the most obvious one was in the beginning before level 1. On level 2, I'd often get "stuck" on a red pole as the grips would not release when I try to jump off and would take a few tries to finally get it but then fall to the base and must start over. I'd also find myself launching myself from the red "rocks" vaulting up and over the top and having to start the level over many times as well.](#)

[I see a lot of potential for this game and I'm sure many people who get the gameplay mechanics down will have a blast. It's a fun experience even if it is short lived. And for the single digit price point at a cost less than most fast food meals, it's worth giving it a shot if you enjoy motion controlled based games.](#)

It's the same as on mobile but your paying \u00a36.99 for it! Also because the PvP update was released so late after launch it's got no online players; waited 10mins for a match and nothing.. Great game. Im a adult. I grew up with this game, and im very glad i can still buy it. Love playing the baggage sorting game on it. Its a great game for kids. Before 911 so its low cops. lol. Please keep this game updated so we can keep playing on new IOS.. nice game. i can spend all my life killing the cute animals i don't want to kill out of boredom. Unfinished game. Last update was in 2016. DO NOT BUY IT ! I regret every cent that I gave to buy this game .. This game is funny. I think one of the things that it really has going for it is its sense of humor; be it the snarky wit of the main protagonist, the wacky array of supporting characters, or just the self-aware exposition, this is an objectively funny game. It's a tongue-in-cheek parody game filled with nerdy references, and the game rewards you for recognizing them. Not to mention, the story is quite absorbing -- after playing for awhile it became hard to stop -- despite the fact that the game certainly does not take itself too seriously, it's difficult not to get wrapped up in the world building and story arch.

That being said, this game is a whole lot of story, a whole lot of jokes, and a whole lot of amusing exposition. That is to say, it's really, really talky. This isn't inherently a bad thing -- but one of my main criticisms is with the way that the frankly epic amounts of written information was handled. It would have benefitted greatly from voice actors, and considering the 1st game was very nicely voice acted, I found the sudden change jarring (despite the fact that even that was a in-joke about sequels). Voicing the cast would have made me feel less like I was reading an interactive sci-fi/fantasy picture book, and more like I was playing a video game. However, if it was impossible to have gotten voice actors for the sequel for whatever reason, then this game very much needed some other way of breaking up all the talking into easy-to-follow chunks. Just having the character's name there above the dialogue box wasn't enough for a smooth gaming experience. Something such as a logo for each character next to their name, a change in font color for each character, or a musical theme (when applicable) associated with each character to indicate when they are speaking would have been helpful.

All in all, this is a funny, absorbing game -- depite what seem like budgetary issues with the voice cast not returning, I would very much recommend this game to anyone who likes an engaging parody story.. This quiz is very exciting, informative! You can learn a lot of facts from the history of football. Besides you can play alone or with friends.. Heed the other reviews. This game is terrible.. This game is pretty awesome. It feels simple but they put so much detail and effort into it. The aesthetics of the game are pretty cool as well. The little in game bonuses add a great touch to this game along with the music as well. Overall great game and would recommend especially for the price.
